EcoSalon

Through generous underwriting, 100% of your membership gift will go toward protecting the Hudson River and safeguarding the New York City and Westchester drinking water supply.

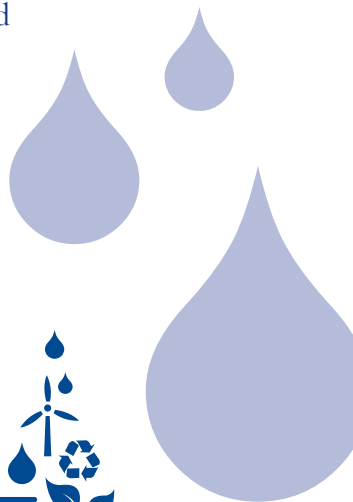

about EcoSalon

The purpose of the EcoSalon is to bring thought leaders in the fields of environmentalism, politics, science, arts and entertainment together with our members and their guests to spend an evening discussing some of the leading issues of our time.

about Riverkeeper

Our mission is to protect the ecological integrity of the Hudson River and its tributaries, and to safeguard the drinking water supply of New York City and the lower Hudson Valley. Through boat patrols, volunteer watchdogs, strategic partnerships, thousands of activist members and a respected legal staff, Riverkeeper is restoring the Hudson River and keeping contaminants out of the drinking water supply of nine million New Yorkers.

We have helped to establish globally recognized standards for waterway and watershed protection, and serve as the model and mentor for the growing Waterkeeper movement that includes more than 190 Waterkeeper programs across the country and around the globe. Riverkeeper believes in the rights of every citizen to enjoy and defend our nation's water resources.
